

Embedded Solutions Providing Mobility, Reliability, and Affordability

Pricing Catalog - Spring 2003

At Brainium, our focus is on delivering products and services that address the need within education to deliver world-class content in an engaging, informative and effective manner so all kids can be achievers. Our solutions assist administrators in implementing new accountability standards, provide teachers the opportunity to use new teaching methods constructively and easily, and present parents an avenue to interact with their child's education.

We believe that embedded computing is the future of education technology. Portable embedded computers allow students access to technology in a classroom, on a field trip or even at home. Their reliability and durability is unmatched by conventional computers due to their unique hardware design. Embedded computers also offer an unparalleled low total cost of ownership for education and in these tough economic times, every penny counts. For these reasons, Brainium Technologies has chosen to specialize in embedded systems to ensure that Education has the best of breed technology available for use within the classroom.

The Brainium DreamMax

Designed specifically for the K-12 education market, the Brainium DreamMax is an affordable solution with unsurpassed durability that brings fast, portable technology into the classroom. Turn it on and you have immediate, all day access to a Windows CE 3.0 device that runs a multitude of applications including familiar word processing, spreadsheet and internet browser applications.

Anytime, anywhere learning is enhanced with the addition of many peripherals and the DreamMax is fully compatible with 802.11b wireless technology. With PS/2, serial and USB ports, you can take advantage of existing peripheral investments that you've made. Include the Rol-A-Lab for storage, recharging, and security and you get a full-product solution for your school.

Windows Powered

Lessons learned on the familiar desktop and navigation of Windows CE 3.0 will directly translate to other Windows operating systems and assist your students in adapting to other computers.

Wireless Connectivity

Expand your limits by dropping in an 802.11b wireless PC card and get access to valuable Internet and local network resources without the cost of cabling and building modifications.

Features & Benefits

Instant On / Instant Off

Why waste valuable teaching time waiting for your student's laptops to launch or shut down? The DreamMax turns on in less than 3 seconds and instantly turns off when you're finished.

Long Battery Life

The DreamMax comes standard with a long-life battery and amazing low-power consumption. This allows you to use the DreamMax for up to 6 continuous hours on a single charge while getting the same features and functionality found in many traditional business laptops.

Rugged and Durable

With a form factor specially designed for education, you can trust that your investment will withstand the rough treatment that can be expected in and out of the classroom.

Expandable and Multi-Functional

With a mountain of software available for Windows CE 3.0, you'll find many valuable applications for use in the classroom. If that isn't enough for you, you can expand the device's capabilities by running Windows Terminal Services and access the hundreds of thousands of applications available for Windows 2000 and XP.

Presentation Ready

The DreamMax ensures you can integrate presentations into your curriculum by providing built-in VGA and TV Video Out ports for connecting to TVs, projectors, and large screen monitors.

DreamMax Solution Bundles...

DreamMax Individual Bundles

The DreamMax Individual Bundle is a great way to get started and share the power of embedded computers within your classroom, media center, or Library.

DreamMax Individual Bundle Pricing

Part #	Description	Price (US\$)
913-201	DreamMax Add-On Includes: 1 DreamMax, 1 NiMH Battery Pack	\$660
913-205	DreamMax Individual Bundle Includes: 1 DreamMax computer, 1 NiMH Battery Pack, 1 A/C Adapter, 1 ActiveSync Cable, 1 User Guide	\$699

DreamMax ClassSet Solutions

The DreamMax ClassSet solution provides a mobile answer to the classroom computer lab for up to 20 students. The Rol-A-Lab is a mobile cart that can securely house your DreamMax computers when not in use or when they require a charge. With a single glance, the educator

can take stock of the DreamMax laptops to ensure all have been returned after use and quickly see the current charging state of all of the computers in the lab. At the end of the class, the educator can lock up the units so that unauthorized access is eliminated.

DreamMax ClassSet Pricing

Part #	Description	Price (US\$)
938-016	DreamMax ClassSet 16 Includes: 16 DreamMax laptops, 16 NiMH Battery Packs, 1 Rol-A-Lab mobile Cart, 2 A/C Power Adapters, 2 ActiveSync Cables, 2 User Guides	\$11,630
938-020	DreamMax ClassSet 20 Includes: 20 DreamMax laptops, 20 NiMH Battery Packs, 1 Rol-A-Lab mobile Cart, 2 A/C Power Adapters, 2 ActiveSync Cables, 2 User Guides	\$14,490

DreamMax GroupPack Solution

The GroupPack solution is unique to Brainium Technologies Inc. With the GroupPack you get the same great dock & charge system found in the ClassSet solution. The GroupPack gives you a bookshelf unit that holds up to 4 DreamMax laptops. This allows you to leave some units securely stored in the classrooms that always require computer access. When all students require access, you can just roll in a DreamMax ClassSet to increase the number of units available.

DreamMax GroupPack Pricing

Part #	Description	Price (US\$)
913-209	DreamMax GroupPack Includes: 4 DreamMax laptops, 4 NiMH Battery Packs, 1 BookShelf unit with Dock & Charge System, 1 A/C Adapter, 1 ActiveSync Cable, 1 User Guide	\$2,900

DreamMax Wireless Solutions

Wireless networking is a practical reality in more environments than ever. The school environment is certainly no different. With 802.11b wireless capabilities the school can take advantage of mobile computer labs while maintaining connectivity to the school's network resources and the Internet. Coupling wireless technology with the Brainium DreamMax, gives you the mobility, security, and access that you expect from a hardwired network infrastructure.

DreamMax Wireless Pricing

Part #	Description	Price (US\$)
938-017	Wireless ClassSet 16 Includes: DreamMax ClassSet 16 bundle plus 16 802.11b Wireless PC Cards (preinstalled)	\$14,110
938-021	Wireless ClassSet 20 Includes: DreamMax ClassSet 20 bundle plus 20 802.11b Wireless PC Cards (preinstalled)	\$17,400

The DreamWriter 500

The DreamWriter 500 is a full-featured word processor with a laptop design. You can adjust the backlit screen between 8 or 16 line display, making it a good match for special needs students. And its storage capacities - including a floppy drive - enable students to easily transfer their work to computers located at home or in other classes.

The full-featured word processor allows you to use many of the WP features found in more expensive desktop computers. You have access to full text styling such as bold, underline, superscript, expanded, and a large font. With a built-in spell checker and thesaurus your students have the tools for great creative writing.

Features & Benefits

Portable

The DreamWriter 500 is small and light (2.2lbs) allowing you to take it almost anywhere.

Floppy Drive

The DreamWriter 500 has a built-in floppy drive so your students can save their work to a floppy disk and submit it to you at the end of class.

Toggable Screen Size

You can toggle the screen size in the word processor, to show 16x80 or 8x40 lines x characters. This is a great feature if you have visually challenged students.

Secure

Security can be achieved by assigning both teacher and student passwords to the computer.

Graphical Navigation

Navigating the many features of the DreamWriter 500 is a snap with the graphical iconic menu system.

Instant On / Off

The DreamWriter 500 turns on instantly giving you the maximum on-task time with the device during class.

Long Battery Life

From a single charge, you'll get up to 13 hours of use. This long-life battery is fully recharged within 3 hours ensuring you have access to the DreamWriter functions when you need them.

Built-In Typing Tutorial Software

Teach your students better typing skills by using the Typin's Cool built-in typing tutorial software.

Personal Information Management Software

You can teach organization and basic data management skills with the built-in organizer software that allows you to schedule meetings and track contact information.

DreamWriter 500 Solution Bundles...

DreamWriter 500 Individual Bundles

The DreamWriter 500 Individual Bundle is a great way to support a take-home program for equitable access to technology. The Individual Bundle comes with everything you need to get started with the DreamWriter.

DreamWriter 500 Individual Bundle Pricing

Part #	Description	Price (US\$)
914-201	DreamWriter 500 Add-On Includes: 1 DreamWriter 500, 1 NiMH Battery Pack	\$310
914-205	DreamWriter 500 Individual Bundle Includes: 1 DreamWriter 500 computer, 1 NiMH Battery Pack, 1 A/C Adapter, 1 Transfer Cable, 1 Copy DreamLink S/W for Mac & Win	\$325

DreamWriter 500 GroupPack

Unique to Brainium Technologies solutions, is the Group Pack, which allows you to distribute word processors with a convenient BookShelf for recharging. For classes with more than 30 students, combine the Group Pack with a ClassSet configuration and you have one-to-one computing.

DreamWriter 500 GroupPack Pricing

Part #	Description	Price (US\$)
914-209	DreamWriter 500 GroupPack Includes: 5 DreamWriter 500 computer, 5 NiMH Battery Pack, 1 Bookshelf storage unit, 1 A/C Adapter, 1 Transfer Cable, 1 Copy DreamLink S/W for Mac & Win	\$1,810

DreamWriter 500 ClassSet Solutions

Converting any classroom into a computer lab is easy with the Rol-A-Lab ClassSet for DreamWriter 500. Conveniently moving between classrooms throughout the school day, our Rol-A-Lab eliminates the lost time and distraction of moving your students to a computer lab. At the end of the day, simply plug the Rol-A-Lab into a single wall outlet and recharge up to 30 DreamWriter units overnight.

DreamWriter 500 ClassSet Pricing

Part #	Description	Price (US\$)
944-015	DreamWriter 500 ClassSet 15 Includes: 15 DreamWriter 500, 15 NiMH Battery Pack, 1 A/C Adapter, 1 Transfer Cable, 1 Copy DreamLink S/W for Mac & Win	\$5,490
944-020	DreamWriter 500 ClassSet 20 Includes: 20 DreamWriter 500, 20 NiMH Battery Pack, 1 A/C Adapter, 1 Transfer Cable, 1 Copy DreamLink S/W for Mac & Win	\$7,250
944-030	DreamWriter 500 ClassSet 30 Includes: 30 DreamWriter 500, 30 NiMH Battery Pack, 1 A/C Adapter, 1 Transfer Cable, 1 Copy DreamLink S/W for Mac & Win	\$10,380

The DreamWriter 450

The DreamWriter 450 is designed for younger students just beginning to learn keyboarding and the intermediate level writers looking to express themselves wherever they write. Full-featured word processing software rewards all learners by making their work look great. Built-in Dictionary and Thesaurus capabilities help writers make sure that their work reads as great as it looks.

As students become more capable writers, the DreamWriter 450 grows with them. With a battery that goes several days on one charge, the DreamWriter 450 travels with students; for taking notes on field trips or gathering data for science projects. It can store up to 100 pages in 128 unique password protected files, and the memory can be expanded, so students won't have to limit their creations.

Features & Benefits

Portable

The DreamWriter 450 is small and light (2.2lbs) allowing you to take it almost anywhere.

Secure

Security can be achieved by assigning both teacher and student passwords to the computer.

Graphical Navigation

Navigating the many features of the DreamWriter 450 is a snap with the graphical iconic menu system.

Instant On/Off

The DreamWriter 450 turns on instantly giving you the maximum on-task time with the device during class.

Long Battery Life

From a single charge, you'll get up to 13 hours of use. This long-life battery is fully recharged within 3 hours ensuring you have access to the DreamWriter functions when you need them.

IR Ready

The DreamWriter 450 has built-in Infrared technology allowing you transfer files to and from the teacher's desktop computer quickly and easily. At the end of class you can also print to an IR ready printer and avoid the hassle of having students lineup and muddle with printer cable connections.

Typing Tutorial Software Built-In

Improve your student's typing skills by using the Typin's Cool built-in typing tutorial software.

Personal Information Management Software

You can teach organization and basic data management skills with the built-in organizer software that allows you to schedule meetings and track contact information.

DreamWriter 450 Solution Bundles...

DreamWriter 450 Individual Bundles

Add a DreamWriter 450 to your existing GroupPack or ClassSet solutions. Or, pick up an Individual Bundle so that your students can take advantage of the freedom to write at home, on field trips, or anytime that the muse takes them.

Parts & Accessories

Carrying Cases

A leather carrying case is available for all DreamWriter products as well as the DreamMax. Each Carrying Case is internally padded to ensure your computer is protected while traveling and has a shoulder strap for greater comfort.

Connection Cables

The DreamWriter and DreamMax models can connect to any Windows and Macintosh computer for file transfer and communication. A different serial cable is required depending on your unit; for the DreamWriter choose the File Transfer Cable, and for the DreamMax, the ActiveSync Cable.

IR (InfraRed) PC Jet

The DreamWriter 450 has a built-in infrared port and can communicate directly with IR enabled printers. The 450 can also communicate wirelessly with your PC or Macintosh by connecting an IR PC Jet to your desktop computer.

IR Printer Adapter

Turn any parallel printer into an Infrared enabled printer by plugging in our IR Printer adapter. With this you can print wirelessly from our DreamWriter 450 computer.

Batteries

All of our computers include a rechargeable battery packs designed to maximize battery life and daily usage. Replacement batteries are available. Make sure you order the right battery for your computer.

Older Model Parts

Brainium is committed to ensuring that you have a very long lifecycle with our products. Even if we no longer sell the model you have, there's a very good chance we'll have parts & accessories that you need. Give our Customer Service Representative a call to discuss your needs at 1-800-663-7163.

Science Brainium

Brainium's flagship on-line product, Science Brainium, is a science resource for grade 3-8 students and teachers. Users explore the world of science by engaging in self-directed, interactive and action-filled activities. Science Brainium features science games, lessons, experiments, animated adventures, links to appropriate Web sites, and current science news stories.

Science Brainium is divided into six fun areas of adventure for you and your students: the BugZone, the Infomactor, the Daily Sponge, Careers, Brain Bytes, Mondo Brainium. Each adventure area explores various sides of science using different multimedia and advanced web technology delivery approaches.

Regular Science Brainium Pricing

Part #	Description	Price (US\$)
955-001	1 Yr Classroom Subscription	\$149
955-002	1 Yr School Subscription	\$749

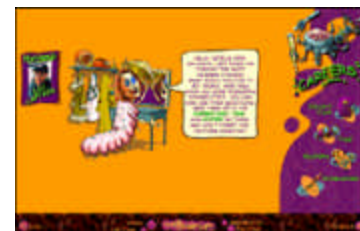

DreamMax Science Brainium Pricing

Part #	Description	Price (US\$)
955-003	1 Yr Classroom Subscription	\$99
955-004	1 Yr School Subscription	\$449

Part cartoon, part adventure game, and a whole lot of science, the BugZone follows a rag-tag band of fugitive bugs through a series of misadventures in space, on their way back to Earth. Through an engaging episodic story, interesting characters, and challenging puzzles, students are encouraged to apply scientific know-how to help the hapless bugs out of their wacky predicaments.

The Careers section is an entertaining introduction to the vast array of career possibilities in science and technology. Designed to inspire, Careers presents science role models in a variety of fields, and with a focus ranging from pure research to practical applications. Each profile also features movie and sound clips, games or Web links.

The Infomactor's comprehensive online educational science coverage is unique on the Web. It forms the content core of Science Brainium, with curriculum-guided coverage of scientific concepts and facts. Its hundreds of pages of lively text are easily accessed with a fun-to-use pop-out index.

Concise, upbeat and current, Brain Bytes connects students to the fast-paced world of science, technology and media. Each of Brain Bytes' eight topic-driven areas are filled with text and illustrations, as well as links to sites that enhance learning. From the latest explorations of Mars to salmon runs and cyberpets, Brain Bytes is a fascinating window on the fast-changing world of science.

From live volcanoes to extinct marsupials, the Daily Sponge is full of science topics that fascinate! As Science Brainium's newsroom for kids, the Daily Sponge connects with the currency, relevancy and broader humanity of science. Each story is vibrantly illustrated with graphics and photos, and is age-appropriate and curriculum-linked. External links to related Web sites further enhance learning and exploration

Mondo Brainium is the launch pad for hot new happenings at Science Brainium, and for Adventures, integrated pathways through the site's core content. Adventures provide for structured, theme-based learning, with assessment tools that track students' progress. Favorite bug characters act as Adventure guides, urging students to take notes and answer questions.

User Services & Professional Development

Brainium Technologies Inc. believes in supporting our customers by providing them with services and resources that maximize the integration of DreamWriter and DreamMax computer systems into the classroom. Providing relevant in-service workshops and “fast track” training kits are all part of fulfilling that mandate.

For detailed information on any of the workshops or Fast Track Kits outlined on this page, contact a Sales Representative at 1-800-663-7163.

Introduction to the DreamWriter Word Processor

This in-service workshop covers the features of the DreamWriter word processing models. Participants will have hands-on experience in the use, maintenance, and functionality of their specific model. A series of guided experiences supplemented by ample handouts will provide an overview of the unit and a discussion of its use in the classroom. This workshop is available for all models.

Activities Include:

- Hands-on practice with document creation and editing
- Saving and storing documents using the memory card (and floppy drive for the DreamWriter 500)
- Using the DreamLink process to transfer files between the DreamWriter and other computers
- Printing
- Coverage of password use and management
- Battery management, care, and maintenance
- Discussion of DreamWriter use in the classroom including specific examples of how teachers are using them, curriculum integration ideas, and classroom management skills

Getting Kids to Write

“Kids write more when they have DreamWriters”, say teachers who have used DreamWriters in their classroom. This in-service workshop will demonstrate the many ways the DreamWriter can be incorporated into the writing process to produce improved and inspiring student work. We will share strategies to make the best use of Brainium technology in the writing process, providing ample handouts and time for participants to discuss ideas and concerns. Available for all models and customized for the Elementary, Middle and High School levels.

Activities Include:

- Identification of the key components of the writing process
- File transfer in the peer editing process
- Evaluation of writing by means of criterion-referenced assessment
- Evaluation of rubrics
- The use of cooperative learning techniques for writing

Fast Track Workshop Kits

If your Professional Development plans are closely tied to strategies that are specific to your school or district, it's sometimes best if a peer who is intimately aware of these issues provides it. Our Fast Track Workshop Kits are designed as an alternative to our in-service workshops. The kits provide you, the trainer, a full set of training resources that allow you to quickly and effectively custom build a training class centered on our products. These kits are inexpensive; yet the comprehensive nature of the material can help you effectively integrate your technology investment without all of the work in starting from scratch.

Each Kit Contains:

- Comprehensive Trainer's Guide
- Powerpoint Presentation
- Workshop handouts for hands-on practice
- Prepared files for use in the workshop
- Creative device use and integration idea handouts
- Introductory Video (DreamWriter Kit Only)

Professional Services Pricing

Resources & Services

We are working hard to ensure that you have access to the resources necessary to make the right buying decision and integrate our products once you have.

The Brainium Website

Newly designed, and easier to use, the Brainium Website (www.brainium.com) is an up to date resource for information on products, services, and ordering. You'll find free access to the latest technical support information, reference guides, and electronic downloads of all User Guides. You can also get company and contact information so you can get in touch with the right people.

We also have state-of-the-art 3D interactive product tours! See all the product features of our hardware online.

The Brainium Evaluation Program

Try before you buy. Brainium offers a two-week evaluation of all of our computer products. This lets you take an in-depth look at the technology without having to "show us the money". An application form is necessary and we will need to confirm which school or district you work for. Contact a Sales Representative today at 1-800-663-7163 for more information on how the program works and how you can get your application form.

Brainium Customer Service

Our Customer Support Representatives are ready to help you with any issues that you may have. Our 3 year product warranty on DreamWriter models and 1 year warranty on the DreamMax also allow you unlimited technical support assistance. Our Customer Support Reps are domain experts on our devices and can help you through almost any problem you encounter in integrating your technology purchase. We also just love to hear what you're doing and how successful you are out there!
